#### A NUTSHELL OF REPUBLIC ACT 9485

Republic Act 9485, otherwise known as "The Anti-Red Tape Act of 2007" is an Act to Improve Efficiency in the Delivery of Government Service to the Public by Reducing Bureacratic Red Tape, Preventing Graft and Corruption and Providing Penalties therefore.

Red Tape generally includes the filling out of seemingly unnecessary paperwork, obtaining of unnecessary licenses, having multiple people or committees to approve a decision and various low-level rules that make government transaction slower, more difficult or both.

The Anti-Red Tape Act covers all government offices and agencies including LGUs and GOCCs, with or without original charter that provide frontline services.

Frontline services include the following services:

- a) with regular face-to-face interaction with the public;
- b) which are highly demanded or highly needed;
- c) which receives the most number of complaints; or
- d) which have immediate impact to the public.

The Citizen's Charter is an official document, a service standard, or a pledge that communicates in simple terms information on the services provided by the government to its citizens. It describes the step-by-step procedure on availing a particular service, and the guaranteed performance level that clients may expect for that service.

Citizen refers to clients whose interests and values are addressed by the Citizen's Charter. It includes:

- a) Citizens of the Republic of the Philippines;
- b) Stakeholders, including but not limited to users and beneficiaries
- c) Other government offices and agencies; and
- d) Transacting public.

The Citizens' Charter shall include the following information:

- a) Vision, Mission and goals;
- b) Identification of the frontline services and clientele;
- c) Step-by-step procedure to obtain a particular service;
- d) Officer or employee responsible for each step;
- e) Maximum time to conclude the process;
- f) Documents to be presented by the client with a clear indicator of the relevance of the said documents;
- g) Amount of fees, if necessary.

#### Historical Development of Quirino State University

The Quirino State College metamorphosed from a municipal high school to a state college. In June 1963, it was known as Northeastern Nueva Vizcaya High School (NNVHS) founded by the municipal government. On June 18, 1964, it was converted into Northern Nueva Vizcaya National Agriculture School (NNVAS) offering Secondary Vocational Agriculture and Agricultural Homemaking curricula.

When Quirino was weaned from its mother province, Nueva Vizcaya in 1972, a municipal resolution changed its name to Quirino Agricultural School (QNAS). On June 10, 1983, QNAS was converted into Quirino State College (QSC) by virtue of Batas Pambansa Blg. 440. QSC started to operate as a state college in SY 1984-1985.

On October 19, 2012, Republic Act No. 10230 was approved converting Quirino State College into Quirino State University integrating the Quirino Polytechnic College and the Maddela Institute of Technology of Cabarroguis and Maddela respectively; all located in the province of Quirino.

#### **Governance**

QSU like any other State University is governed by a Board of Regents.

The administration of the University is vested in the President of the University who renders full-time service. The President is assisted by Vice-Presidents who are appointed by the Board of Regents upon the former's recommendation.

Administrative Council. There is an administrative council consisting of the President of the University as Chairman, the Vice Presidents, Deans, Directors, and other officials of equal rank as members, and whose function is to review and recommend to the Board of Regents policies governing the administration, management and development planning of the University for appropriate action.

Academic Council. There is an academic council with the President of the University as Chairman and all members of the instructional staff with a rank of not lower than Assistant Professor as members. The Academic Council has the power to review and recommend the curricular offerings and rules of discipline of the University subject to appropriate action of the Board of Regents. It is task to fix the requirements for the admission of students as well as the graduation and the conferment of degrees subject to the review and/or approval of the Board of Regents.
